SOFTWARE DEVELOPER

Cross-Platform • Full-Stack • Project Management

- Adept at designing and implementing backend systems.
- Strong collaborative skills and a keen eye for detail.
- Passionate about leveraging technical expertise to solve problems.
- Demonstrated skill in object-oriented programming, debugging, and testing.
- Skilled at achieving accurate, polished outcomes under demanding deadlines and heavy workloads.

TECHNICAL SKILLS

Programming Languages:	C#, SQL, Python, JavaScript/TypeScript, HTML/CSS
Operating Systems:	Unix, Linux, Windows, MacOS
Development Tools:	Visual Studio, Vs Code, Eclipse, Rider/IntelliJ, Git
Cloud Computing:	AWS, Google Cloud
Other Tools:	MS Office, Figma, Adobe Suite, Jira/Trello, Vercel

EXPERIENCE

Full-Stack Developer Diaryz, Remote	Jun 2025 – Sept 2025
• Developed and optimized a cross-platform mobile app with responsive design for both iOS and Android, ensuring consistent user experience across devices. • Engineered and structured back-end services to manage user authentication, content posting, and data persistence, delivering a stable and scalable platform.	
Backend Developer Meteorite Online Solutions, Remote	Jun 2022 – Feb 2023
• Contributed to designing and implementing a backend system that processed customer data into structured, output-ready formats for delivery to clients. • Collaborated alongside the main product team, assured the system met business standards and aligned with the requirements set and delivered reliable, accurate results.	

EDUCATION

Software Engineering Technology (Co-op) Centennial College, Toronto, ON	Jan 2025 - Present End date = Dec. 2027 GPA: 4.23/4.5 (A)
Courses: Web Application Development Java Programming	C# Programming Software Systems Design Advanced Database Concepts (SQL) Linux/Unix OS

ACADEMIC PROJECTS

Software Requirements Specification Document – “Stubs” Payroll Application
• Collaborated with fellow students to develop a cloud-based Payroll application named “Stubs” that leveraged multiple systems to create a coherent and consistent system for users.
Web Design – Daily Crumb daily-crumb.vercel.app/
• Designed the website for a fictional breakfast café “Daily Crumb” using HTML, CSS, and JavaScript. • Ensured the website kept a responsive and intuitive look depending on screen size.
